Sustainability

The paper component of this label helps to increase its sustainability rating, but the currently available adhesives are not biodegradable.

-  Recyclable
-  Biodegradable Paper only
-  FSC Mix certified paper

Pick Antique Paper when you need...

A 'traditional feel' label

With a notable texture effect, this material is perfect for creating a rustic or hand-made feel.

Also textured: Recycled Paper

A luxury or foil label

Many customers have combined digital or foil printing with this material and loved the results.

Just as great for luxury: Vinyl (clear)

An upgrade from normal paper

Take a step beyond standard paper and help give your product a more unique feel.

Alternative upgrade: Polypropylene

A mould proof label

Specifically developed to mould proof, this material is well suited to products such as wine.

Better for unclean environments: Polyethylene
